

# IMPACTS COMMUNITY

GIVING BACK  
HOW COLORADO'S OIL & NATURAL GAS  
INDUSTRY IMPACTS THE COMMUNITIES WHERE  
WE LIVE AND WORK.

## BY THE NUMBERS

*Over \$10 million in financial support to Colorado nonprofits.*

*Over 52,000 volunteer service hours logged.*

*Over \$150,000 raised for Colorado Energy Foundation grant recipients.*

*Over \$10,000 in crowdfunded donations raised for Food Bank of the Rockies.*

## COMMUNITY SUPPORT & VOLUNTEERING DURING UNPRECEDENTED TIMES

Within the first weeks of the COVID-19 pandemic, rapid response by industry employees resulted in new heights of community support through traditional charitable donations but also thousands of dollars raised in grassroots support.

Volunteerism adapted to the challenges of COVID-19 as well, with employees volunteering through virtual opportunities such as online mentoring, sending letters of appreciation to first responders, and safe, socially-distanced food distribution, bicycle repairs for children, and much more.

*"COGA's members demonstrate leadership – not just through words, but through action, especially in a year like 2020, where the need was even greater."*

Dan Haley, President & CEO, Colorado Oil & Gas Association
